

③ Initial Design Sheet - [2]

Layout

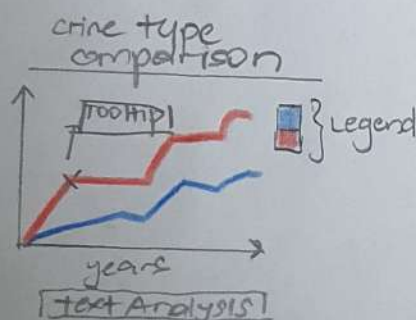

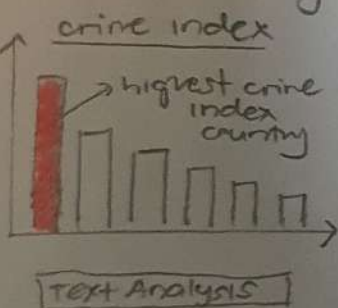

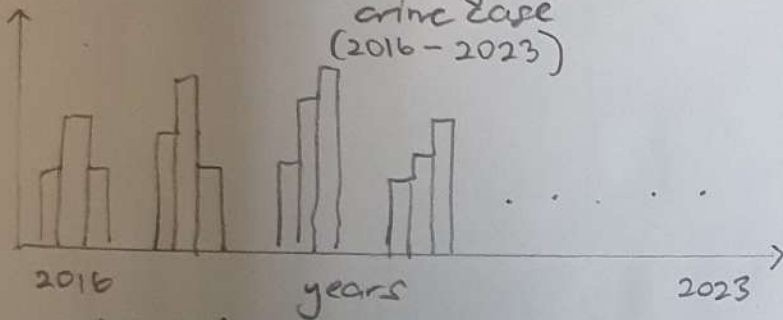

Overall Crime Overview by State

Tooltip

Text Analysis

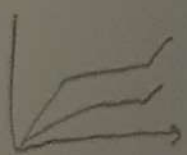

Top 3 states
with highest
crime case
(2016 - 2023)

Focus

to see which state
has the highest overall
crime case statistic
↳ given by a darker
shade of colour

to show the overall trend
of assault vs property
crime cases over a time
period

↳ if it's an upwards trend
or a downwards trend

highest bar
correlate to the
highest value for
crime cases
→ crime index
value

Metadata

Title : Dashboard

Layout

Author : Isaac Dass

Date : 25/9/2025

Sheet : 3

Task : Initial Design on
the choropleth map,
grouped bar chart,
bar chart and multiline
line chart

Components

↳ Choropleth map

↳ require normalised
data

↳ grouped bar chart

↳ bar chart

↳ multiline line chart

operations

↳ hovering on the line for
the multiline line chart,
bar in the bar chart and
grouped bar chart,
as well as the states
in the choropleth map
will make the tooltips
appear

Discussions (Pro and Cons)

Pros

- helps to show a direct and
clear story on the surface
level

- easier to understand
idioms used

→ simple and clean which allows
the readers to see trend
data over time

Cons

- since the choropleth map combines
the data for both type of
crimes, it might not show
the overall story for each crime
type for each states

- grouped bar chart might take
up too much space

↳ showing top 3 states with
highest crime cases for each
year might be redundant
