Title: Final design sheet

Author: Isaac Vass

Date: 26/9/2025

Sheet: 5

Task: Final design implementation

Components

- ↳ 2 proportional graduated symbol map
 - ↳ assault crime
 - ↳ property crime

- ↳ multiline line chart
- ↳ bar chart

Operations

- have meaningful annotation
- allow reader to view numeric value at a selected point
- allow tooltips to show data at relevant points

Focus

- the bubble size helps to let the readers know on the severity of crimes for each states
 - ↳ bubble size ↑ crime ↑
- the multiline line chart help readers to see the overall crime trend
 - ↳ also make comparison between the trend of assault and property crimes
- bar chart helps readers to see which country has the highest crime index for a particular year

Discussions

(Pro)

- Pro
 - ↳ simpler and clean to understand since there's less complex idioms for readers to decipher
 - ↳ help to show a clear trend and overview of data

Details

- clean the dataset in excel
- use regalite library, html, css and javascript to build the dashboard

Estimated time

- 2 days to clean data - 7-9 days to dashboard
